

Silo City: Assignment #1

This paycheck was found by me during one of my tours at Silo City. It's considered a "PRIMARY SOURCE" because it is the actual document, not an interpretation, second source, or other type of record.

The first part of your assignment is:

Study the paycheck and try to figure out if this is pay for one week, two weeks, etc. You will have to internet search to see what people were paid during this time.

Then, list the price of ONE other item sold during this time.

This information will be shared on the discussion page in Schoology so we can all see and share the prices of 1950 - 1954.

Choose different items so we have a variety. The second posting of the same item will not receive credit.

No 51208 HO ¹⁰⁻⁴/₂₂₀

RUSSELL MILLER MILLING CO.
